GO

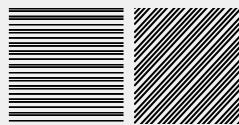

Clipping and rect(f):
Yellow rect.framed
by B-Y-G-R rect. 1 p.
thick. Your printer may
render very thin lines
surrounding "X"

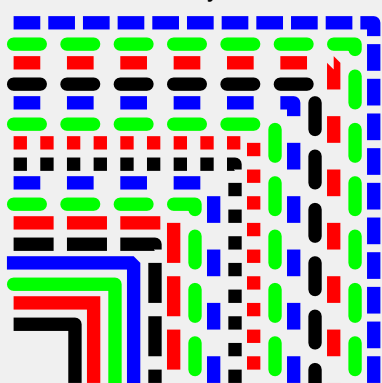

Integer primitives

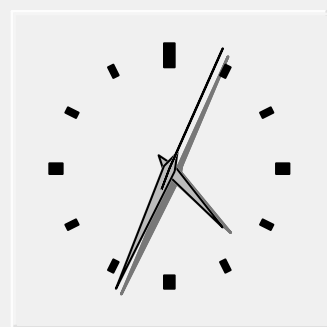

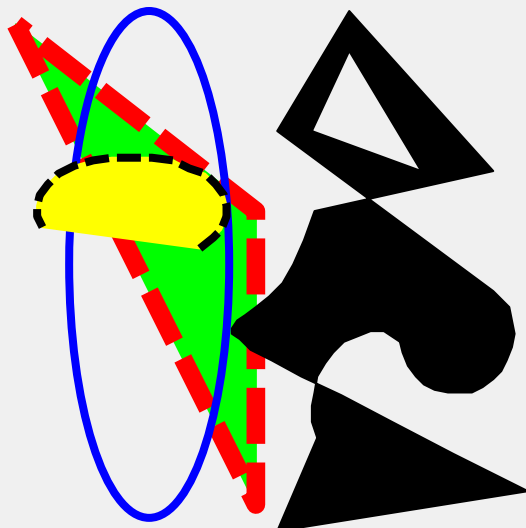

Sub-pixel drawing of
lines 1.63 points apart
On the screen you
can see aliasing, the
printer should render
them properly

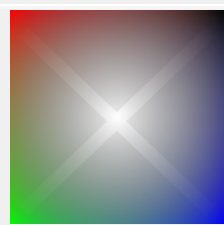

Line styles

Complex (double) drawings:
Blue ellipse may not be
correctly transformed
due to non-orthogonal
transformation

RGB with alpha
